# ACKNOWLEDGEMENT

On behalf of myself, I would like to thank all members of group 5 for your hard work and contribution towards the completion of this eProject. I would also like to show my gratitude for Mr. Pham Cong Danh for his valuable assistance during both the planning and development phase. Finally, I would like to thank Aptech for allowing us the opportunity to hone our programming skills and test ourselves on real-life problems. Thank you.

# SYNOPSIS

Safe Carz Limited is into providing insurance cover for Cars and other vehicles. They provide various insurance policies through different Insurance companies. They now want to provide details of these insurance products on internet. They want to host a website with all the information about their organization and various insurance plans available with them.

# PROBLEM DEFINITION

The Web site is to be created based on the following requirements.

1. Home Page should contain logo of the site with proper sections and details of various Insurance plans available.
2. The site should display a menu which will contain the options for brief introduction about the various categories and plans available, location of the shop and any other information if required.
3. The information should be categorized according to the company names of the Insurance plans like if a User wants to see only “Zurich Insurance” plans or any other company’s insurance plans then he/she can click on a Link/button/menu etc and can see only that Companies plans .
4. Another category option for plans of different type of vehicles, like ‘Four Wheelers’, ‘Two Wheelers’ etc. should be created and accordingly.
5. When a user selects any particular brand, a list of various plans for that brand will be displayed
6. A brief summary about individual plans should be displayed on the Web Page along with the base price.
7. There should be a “Contact Us” page which will have the Address of the Store which is as follows and the mail address which when clicked will invoke the local mail client from where they can send an email. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps).

# CUSTOMER'S REQUIREMENTS SPECIFICATIONS (CRS)

**Client: Inurance**

**Business/Project Objective:**

The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application..

The objective is not to teach you JavaScript/Dreamweaver but to provide you with a real life scenario and help you create basic applications using the tools.

You can revise the chapters before you start with the project.

This project is meant for students who have completed the module of HTML5**.** These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential that a student has a clear understanding of the subject. Students should go through the project and solve the assignments as per requirements given.

Kindly get back at eprojects@aptech.ac.in in case of any doubts regarding the application or its objectives.

**Input to the system:**

- Browsing products based on brands, type of equipments…

**Output from the system:**

- A menu that will categorize all the functions of the site.
- Display the list of available products category wisely.
- Perform the brief comparison by showing 2 products of the same type with their details.
- Site should be able to provide brief introduction/history about the company under About Us page.
- The location of the company is in Contact Us page.
- Besides the above requirements, the site should have look and feel as per the industry standards.

**Expected delivery date:** Nov-15-2023.

**List of deliverables:**

- Document Word.
- User Guide.
- Source code.

# Hardware/ Software Requirements:

**Hardware**

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better.
- 64 Megabytes of RAM or better.

**Software**

- Notepad/HTML editor/CoffeeCup
- Agular/Angular JS/React/BootStrap
- Dreamweaver, VisualStudioCode.
- IE 5.0/ Netscape 6.0.

# SCOPE OF THE WORK (IN BRIEF)

## I have discussed with myself and agreed upon the website layout shown as below:

1. **Homepage**: Site overview. First we have the website logo. It includes menus, hot products and many unique offers. Finally, our preferential policy is to support and serve customers in the most dedicated way possible

2. **Plans**:

- Civil liability insurance: Protects car owners from legal risks in case of traffic accidents.
- Technical insurance: Responsible for damage to your vehicle in case of accident, collision or breakdown.
- Personal accident insurance: Provides protection for the health and property factors of the driver and passengers in the event of an accident.
- Legal insurance: Legal support and legal costs in case of car-related disputes.
- Theft or breaking insurance: Protects car owners against theft or breaking.

3. **Category**: Complete list of our products along with their detailed information and images. Filtering, sorting, sorting functions are available to enhance user experience. Products provided include car insurance, motorbike insurance, personal accident insurance and other similar types of insurance. Clicking on any product will display the corresponding instructions.

4. **Promotion** : There are special offers and many other attractive gifts when purchasing insurance packages available on the website.

5. **Abouts Us**: Our website specializes in distributing products of the most famous and popular brands today

6. **Contact us**: Gmail
   Customer support
   Contact.
